CIRCULAR LETTER NO. 12

EDUCATIONAL AND TRAINING FILMS

1. Attached hereto is a list of War Department films available to all units for use in education on basic and technical medical subjects and for the training of Medical Department personnel.
2. It is desired that full utilization be made of these excellent films.
3. All War Department films are distributed by the Signal Corps through film libraries located in each USASOS Base Command. These libraries serve all units of all U.S. Army forces in the base area. Advance showings may be arranged by direct communication with the officer in charge of this library. Projectors and other necessary equipment can be made available in most bases.
4. All surgeons and medical unit commanders are urged to make full use of these and all other appropriate training films available. A report on the extent of the use of such films should be included in the Quarterly Report for History of Medical Activities required by AR 40-1005, implemented by directives issued in this theater of operations.

Guy E. Zenit
